Neighbourhood catch up - Let's have some fun!

Come down and design some local activities at the stadium and get an update on what's happening at the Park.

Tuesday 20th November
Eden Park
5.30pm to 7.30pm
Food and drinks will be provided

Building on the previous workshop, this time we invite you to come and help us make some of the things locals have talked about happen (you can still come along if you didn't attend the initial workshop). We will focus on building plans to utilise some of the available spaces at Eden Park over the summer. You will hear about things already happening, and have opportunities to be part of some of these plans as well as develop new activities. Key opportunities that can be developed are:

- How can we use the Cricket Avenue grass site for an event/installation or activation
- What arts/mural installation could we work on with the community at Eden Park
- How can we utilise the Entry G carpark on some of the available days over the summer

You will be asked to choose a group to participate in based on the topics above on the night. Please give some thought to which group you can bring the most insight to beforehand e.g. do you know a local business, artist, school group who could add

value to one of these spaces? Bring them with you! How can you contribute to a project in one of these spaces - skills, knowledge, connections, organising, resources...?

We're looking for people who are resourceful, innovative and ready to take action with us!

The session will finish with an update from CEO, Nick Sautner, on the long term view for Eden Park with opportunities to ask him questions.
