## The Hood - Post-event survey

---

Over the weekend global pop sensation P!NK made history at Eden Park.

Hosting over 100,000 fans over two nights not only broke attendance records at the spiritual home of the All Blacks but P!NK was also the first female artist to headline Eden Park.

By all accounts across social media and online, the reviews for the show and the operational delivery have been positive, noting the limited adverse commentary relates to transport and third-party contractors.

As always, there are areas where we can do better so the focus from Friday to Saturday was on improvement throughout the stadium and environs. Our team is working with the promoter to collate areas and actions required ahead of future concerts, and as our neighbour, we want to hear your opinion about the P!NK concerts.

We have prepared a [short survey](#) which we'd appreciate it if you could complete – your feedback is important to us and forms part of our ongoing planning and continuous improvement process.
